KARTIK GULERIA

CYBERSECURITY ENTHUSIAST

+91-9428689914 || kartikguleria1032@gmail.com || LinkedIn || GitHub

SUMMARY

Third-year IT Engineering student specializing in **Cybersecurity**, with hands-on experience in ethical hacking, penetration testing, and network security analysis using Kali Linux. Google Cybersecurity Certified, currently advancing skills through **Coursera Ethical Hacking**, **Google Cloud Skill Boost Cybersecurity**, and **NPTEL Ethical Hacking** courses. Active CTF participant on Hackerverse, skilled in conducting vulnerability assessments, automating security tasks with Python, and strengthening system defenses. Passionate about building a career in dynamic, security-driven environments.

TECHNICAL SKILLS

Python	Network Security	SQL
C++	TensorFlow , PyTorch	Wireshark
HTML , CSS , JS	BurpSuite	Numpy , Pandas , Scikit-Learn
Penetration Testing	Kali LInux	Git & GitHub

PROJECTS

1. Cybersecurity Automation Scripts (Python)

- Developed Python scripts to automate log analysis, port scanning, and password strength checks.
- Integrated Nmap & Netcat results into CSV reports for easy review.
- Enhanced efficiency of manual security operations by 40%.

Tools Used: Python, Nmap, Netcat, CSV Libraries

2. Secure Login System with Hashing

- Designed a secure authentication system using password hashing (bcrypt/argon2) and input sanitization.
- Prevented SQL injection and brute-force attacks using validation and retry-limiting mechanisms.

Tools Used: Python SQL, Hashing Libraries /Flask,

3. Network Traffic Analyzer (Packet Sniffer)

- Created a Wireshark-like packet sniffer using Scapy in Python to capture and analyze packets.
- Implemented filtering options to detect suspicious traffic patterns.

Tools Used: Python, Scapy, Wireshark

… and many more

EDUCATION

SSC and HSC — June 2010 - May 2023

St. Paul's School , Ankleshwar

Bachelor of Technology (B.Tech) — June 2023 -Present

Charotar University of Science and Technology ,Changa

- Relevant coursework in Information Technology.

ADDITIONAL INFORMATION

- **Languages:** English, Hindi , Gujarati .
- **Certifications:** Automate Cybersecurity Tasks with Python , Connect and Protect: Networks and Network Security , Tools of the Trade: Linux and SQL , Nmap - Live Host Discovery
